Executive Summary :

       Currently pursuing **Bachelor of Technology in Information Technology** final year and working as an **fullstack trainer** in **Shrika Institute of Creative Technology** and has experience in fullstack application development by building projects. Eager to learn and explore new technologies to solve real world problems. Interested in **Fullstack development** and its relevent domains (**Frontend Development , Backend Development,Devops**). And had an skilled knowledge on **linux systems** as its my daily driver.

Skills and Knowledge :

Frontend Skills : Reactjs,Vite , Bootstrap, Tailwind Css,Material UI , Javascript, HTML,CSS.
Backend Skills : Nodejs,Expressjs,SQL, Mongodb,Redis,Docker,Firebase,appwrite, Amazon Web Services, Postman,REST API Development,Django.
Devops skills : Git ,Github,Gitlab,Linux Servers, Shell scripting (Bash).
Domain Skills : Fullstack development, Devops, Cloud Computing,System admin , Networking.
Programming Languages : C,Python,Javascript,Java,Lua.
Soft skills : Communication,Collaboration ,Problem solving and troubleshooting,Documentation, Team Work,Adaptability,Public Speaking,Strategic Thinking.

Projects :

- **Job Application - CareerCart** | Docs
  - Type : Freelanced project
  - Features : User management, Job vacancy Management, Application management , real time mailing.
  - Tools : Mongodb , Nodejs,expressjs, nodemailer, Reactjs,Docker ,Render,Netlify,Cloudinary.
  - Impact : Client had cleared the final year assessment by this project.
- **Food Delivery Application – EatEasy** | Docs
  - Type : Workshop project
  - Features : hotel management, user management , food management , cart and order management, Ontime delivery alerts.
  - Tools : Mongodb , Nodejs,expressjs, nodemailer, Reactjs,Docker , Cloudinary, Render,Netlify,Material UI.
  - Impact : Showing the project to 80+ students to learn the technologies used in it.
- **Blogging Application – Mission Wandering** | Docs
  - Type : Personal project
  - Features : Text Editor for writing blogs, Followers management, Blogs management.
  - Tools : Mongodb , Nodejs,expressjs, nodemailer, Reactjs,Render, Material UI.
  - Impact : Learnt to implement the editor for applications.

- **Audio Transcription application – Echo** | Docs
  - Type : Personal project
  - Features : Transcribe audio file with AI , Transcriptions management , User management.
  - Tools : Django , DRF , PostgreSQL, AssemblyAI , Docker , Cloudinary ,React and Tailwind CSS.
  - Impact : Learnt to integrate AI and handle files in django project.

Work Experiences :

- **System admin intern** – 5 Months – MAR 2023
  - Attended an **System administrator internship** in **Cisco NDG** platform .
  - Learned to handle the linux servers and server networkings
- **Fullstack Development Trainer** – Present - SEP 2023
  - Teaching the students in Fullstack Development.
  - Both online and offline classes and learned to communicate and collab.
  - Working in **Shrika Institute of Creative Technology.**

Educations :

- **Ultra college of engineering and technology** | 2021 - 2025
  - Bachelor of technology in **Information technology**
  - CGPA : 8.09 / 10

Certifications and achievements :

- Fullstack Development certification – Infosys Sprinboard
- Cloud Computing Certification Badges – AWS educate
- Linux Servers and scripting – Cisco NDG
- Docker and Git & Github - Udemy
- Wordpress Certification – Cursa education
